Collaborate,
Monitor & Improve

FireStart Process Portal

Ever felt like being lost in a jungle of deadlines, data and responsibilities? We enable you to get the full picture of your company's process landscape and collaborate with your co-workers.

- ✓ Personalized dashboard with KPIs on all your processes
- ✓ Process publication and feedback loops
- ✓ Runs stand-alone or integrates into your intranet solution

FireStart Mobile

All your processes in your pocket: Thanks to responsive design, our Process Portal adapts to the smallest screens allowing you to complete your tasks from anywhere.

- ✓ Task management to go
- ✓ Receive instant notifications on process changes
- ✓ Kick off your workflows on the fly

Become more efficient with your work in 3 simple steps

Process Modeling

Enhanced process modeling allows you to build complex flowcharts and manage process documents, resources, risks and IT systems with performance metadata.

Workflow Automation

Powerful productivity gains are within your reach: Transform your processes into executable workflows by connecting them to your IT systems with just a few clicks.

Process Intelligence

Get valuable insights into your workflow execution performance with FireStart's process intelligence toolkit and improve your business step by step.
